

# THE BONNER PROGRAM

*Access to Education, Opportunity to Serve*

Campus:\_\_\_\_\_ | Contact:\_\_\_\_\_

The Bonner Program fosters students seeking higher education through a service-based, cohort-supported scholarship program. Undergraduate students have the opportunity to work directly with local non-profit organizations in an intensive, sustained manner. Bonners serve 8-10 hours per week in the communities facing issues of poverty, education and environmental sustainability.

## A CATALYST FOR CHANGE

The Bonner Program creates an infrastructure for an on-campus culture of service through institutional curriculum and best practices.

### Community Change

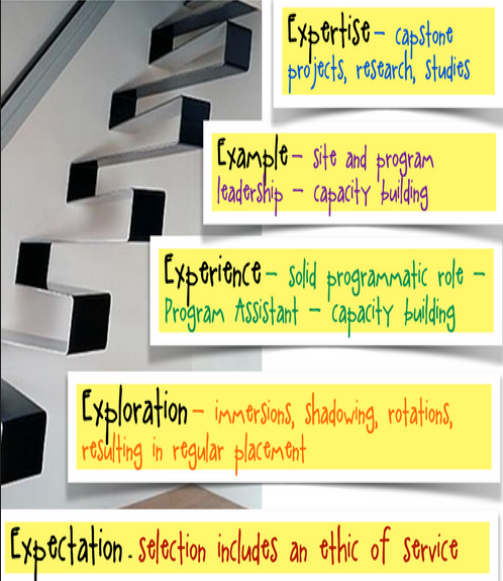

Through sustained collaboration with our partners, students in the Bonner Program promote more significant change, resource development, and capacity building in the community.

### Campus Involvement

Bonners are diverse and studious campus leaders that actively encourage and engage those around them to partake in service.

## HIGH-IMPACT PARTNERSHIPS

### COMMUNITY PARTNER EXPECTATIONS

To facilitate the relationship between your organization and a Bonner student, it is highly recommended that someone from your staff is assigned to the student as a manager and mentor to their service.

This individual will serve as your site supervisor. Site supervisors will be responsible for

approving logged hours and holding them accountable to their agreements.

It is preferred that the site supervisor be present for the majority of the time that the student is on-site with your organization to ensure that this relationship is as mutually beneficial and effective as possible.

## OUR BELOVED COMMUNITY

The Bonner Network has been committed to being a cohort that provides educational resources and best practices. Join us, and become a part of our “WE.”
