SCHOOL OF PUBLIC AND
ENVIRONMENTAL AFFAIRS

PUBLIC MANAGEMENT

15 credit hours | online or on campus
Develop skills in management, budgeting, finance, and human resources to help advance your public service career.

HAZARDOUS MATERIALS MANAGEMENT

15 credit hours | on campus
Developed for managers and technicians in both the public and private sectors, this program provides information you can use to develop, implement, manage, and assess hazardous waste programs for local, state, and federal regulatory agencies.

SOCIAL ENTREPRENEURSHIP

18 credit hours | on campus
Learn to approach public needs with a seamless combination of entrepreneurial practices and social purposes across the nonprofit, for-profit, and governmental sectors. This program is open to MPA students only and includes coursework from IU's Kelley School of Business.

RURAL ARTS ADMINISTRATION

15 credit hours | on campus
Learn how to work with arts and creative industries to benefit residents of rural communities, including Indiana's upland region. Take courses through the O'Neill School's arts administration program exploring the impact of the arts on community development and well-being while also working with IU's Center for Rural Engagement on community projects and internships.

PUBLIC AND NONPROFIT EVALUATION

15 credit hours | online
Develop a strong understanding of quantitative and qualitative research methods so that you can take an evidence-based approach to determining what makes programming effective and valuable for your organization. This program is offered jointly by the O'Neill School and the Center for Evaluation, Policy, and Research within the IU Office of the Vice President for Research.
