

MASTER OF SCIENCE IN HEALTHCARE MANAGEMENT

Our rigorous one-year degree program will help you develop a foundational understanding of the U.S. healthcare system, develop solid business and leadership skills, and gain hands-on experience in the field.

Through a unique partnership between the O'Neill School of Public and Environmental Affairs and the Kelley School of Business, we develop innovative healthcare leaders with skills and principles to serve the greater good, contribute to the creation of an equitable and healthy society, and actively shape a sustainable healthcare environment.

We prepare students for leadership roles in organizations across the healthcare industry including hospitals, healthcare consulting firms, pharmaceutical and medical device companies, insurance, and long-term care facilities. No prior experience, industry knowledge, or GRE score is required.

SKILLS-BASED CURRICULUM

We worked with more than 50 healthcare leaders from across the industry to identify the skills our graduates need and built our curriculum to meet them. In just one year, you'll learn to make sound, data-driven decisions using healthcare management best practices and graduate ready to take on a leadership role.

Start the summer with a six-credit-hour jumpstart course in the Kelley School of Business, which will help you to develop a solid foundation for your graduate coursework. Your remaining two semesters will consist of 12-15 credits, including an optional five-day intensive course in the spring set in Washington, D.C., leading up to graduation in May.

NATIONALLY RECOGNIZED CERTIFICATIONS

By completing multiple national certification trainings included as part of the program, you'll be able to distinguish yourself on the job market by signalling that you've mastered the skills needed to succeed.

- Green Awareness
- A3 Thinking
- Agile Professional Scrum Master One Prep Training
- Presentation Advantage®
- Project Management Essentials®
- The Five Choices to Extraordinary Productivity®

PREPARE TO LEAD FROM DAY ONE

We'll help you put what you learn in the classroom into practice.

NINE MONTHS OF LEADERSHIP EXPERIENCE IN A HOSPITAL SETTING

Spend 5-20 hours a week at a healthcare organization, leading a multidisciplinary team through a continuous improvement project. More than just an internship, you'll be placed in a carefully designed immersion experience tied directly to your coursework. Our practicum partners include IU Health, the Red Cross, Precision Value and Health, and many more.

FOCUS ON WELLNESS

As a healthcare leader, you'll need to know how to coach yourself and your team to ensure maximum performance, which is why our program will prepare you to model a variety of self-care strategies for your staff and your peers.

IS THE MSHM DEGREE FOR YOU?

Our program is designed for anyone interested in building a competitive advantage for entry- and mid-level management positions in the healthcare industry, including:

- Current undergraduate students
- Students planning to take a gap year before applying to a health professions school (medical school, dental school, etc.) who want to build the skills necessary to run their own practice
- Early career professionals with an interest in healthcare management, regardless of previous experience
- Mid-careerists ready to take on positions of increasing responsibility, including those leading teams for the first time

"This is the top of our game, and I do feel like we are making a difference on the nursing units, and I feel like we are making a difference with our patients. The MSHM program prepared me for this role."

CAT SARTINO, MSHM'20

Infection Preventionist, PeriOperative and Procedural Services

The MSHM is offered as a residential/online hybrid or fully online program. We also offer an executive track, which is fully online and designed for working professionals.
